As we look to the future,

We earnestly hope that your organization will continue partnering with us in our mission to empower deserving ethnic youths through education and entrepreneurship within our community. Together, we can make a meaningful difference and pave the way for a brighter future for all.

Supporting the East Valley Hispanic Chamber of Commerce (EVHCC) foundation and its diverse range of programs, the annual golf tournament holds a significant purpose. Among the various initiatives benefiting from the tournament, the STEAM (Science, Technology, Engineering, Arts, and Mathematics) Scholars Program stands out. With a decade of successful implementation, the EVHCC foundation takes pride in nurturing this program, which has positively impacted over 200 students and granted scholarships totaling more than \$110K.

Our commitment to the community drives us to create high-quality programs that inspire students to explore entrepreneurship.

STEAM SCHOLARS PROGRAM OVERVIEW

The **East Valley Hispanic Chamber of Commerce** (EVHCC) is pleased to sponsor the **STEAM** Scholars Program. This project is funded through grants, sponsorships, and in-kind services and contribution.

Our project is an academic enrichment program for public school students, introducing them to the field of Science, Technology, Engineering, Arts and Mathematics. In partnership with public schools, students are selected, introduced to our program and offered the opportunity to explore career opportunities in the STEAM field.

As a Chamber, our focus is to develop the future workforce of tomorrow, and to engage, identify and mentor our future leaders. Our program has three components, a four-week hands on experiential **summer institute**, a **mentorship program**, and a **scholarship program**.

The summer institute is comprised of activities, tours, and presentations from various organizations in the fields of Science, Technology, Engineering, Arts and Mathematics. Youth are selected by public school administrators, and student participate voluntarily. Youth and parents are also provided mentoring, introductions and connections to scholarship processes and opportunities.

The mentorship program includes adult youth mentoring. Students who have previously participated in the STEAM institute, comprise of local partners in the fields noted above will shared their knowledge and passion to spark student's creativity and interest to boost proficiency and on-time graduation rates. Mentors will engage our students and their parents, setting goals and supporting our students and parents as our students' progress through High School and enter College.

The scholarship program provides financial incentives to our students and parents to further support high school graduation and college preparation. Through EVHCC fundraising initiatives, and collaborations with other organizations, funding is raised to award scholarships for youth. Select students are awarded scholarships based on summer institute participation, demonstrated leadership, school attendance, and academic efforts and achievements.
